

**UNITED METHODIST CHURCH Northern Illinois Conference Archives**  
**Processing Inventory**

**Notes:**

Roman numerals for shelves I-V will be written as numbers 1 – 5 so the list can be sorted by “location”

Some Series Numbers have been written with zeroes in the 10’s and 100’s denominators so the list can be sorted by “series number” [for example 2/2/1 has been written as 2/2/001 so that, when sorted, the list does not appear as 2/2/1; 2/2/10; 2/2/100] The series numbers on the boxes remain as they were.

Recommend relabeling the boxes using the plastic label holders – simply pull the label off the box, apply the label holder, and place the label inside the holder. Lucy Chung will have the plastic label holders.

Recommend a thorough shelf reading using this inventory! During the Summer 2014 project, many items were moved. For the most part these moves and changes were documented, but some margin of error should be assumed.

The shelf-reading will reveal those materials that are most in need of further processing. Recommend the shelf reading be done by a professional archivist who can do a more thorough triage of the collection.

The word “unprocessed” indicates the item needs more attention. In some cases these materials have not been addressed beyond simply identifying what the material is (or might be)

The # boxes column was created to aid the archivist during the Summer 2014 project. It is helpful to ensure one has the right box, but is probably not important otherwise. “Flat” refers to a grey flat archival box, “½” means the box is a half-size grey document box, “hol” means a full-sized document box [the name derives from the Hollinger Company, a major producer of such boxes, rather like calling tissue “Kleenex”]

Important Note: the Summer 2014 project centered around processing hundreds of previously unprocessed church records. These records are located in Row 1 Section A. **These are not all of the church records in the collection.** Keyword searches for church records are recommended to ensure all the records available in this collection are discovered.

<b>Series Number</b>	<b>Title</b>	<b># Boxes</b>	<b>Location</b>	<b>Notes</b>
